COBHAM

www.cobhamdes.com

Cobham Sensor Systems SBU provides a complete suite of RF/Microwave items ranging from custom MMICs, IMAs, Waveguide, Integrated Antenna Systems and stand alone Antennas, Radomes, Slip Rings, Rotary Joints and numerous Microwave Components. Trusted products from companies formally known as: *AEL, Atlantic Microwave, Atlantic Positioning Systems, Continental, Kevlin., M/A-Com, Nurad & REMEC.*

www.emct.com; www.frfl.com

EMC offers surface mount power terminations, attenuators, *thermopads*, *smartloads*, and custom chip equalizers. **Florida RF Labs** offers high power resistors, terminations & attenuators; both flange and surface mount options. Also offered is the *Hybrix* family of signal distribution components & cable assemblies that can be phase and amplitude matched upon request.

www.haloelectronics.com

Halo specializes in communications magnetics for the LAN, 10BaseT, Gigabit, 10/100BASE-TX, PoE, VoIP & Telecom, T1/E1/J1, ISDN & CEPT, E3/DS3, DSL industries.

www.microsemi.com

RF Integrated Systems Group includes RF/Microwave PIN, Varactor, Limiter and Schottky Diodes. This Microsemi group also provides *Power Transistors*, Silicon BJT, SiC SIT (static induction transistor) for *UHF, L & S band Radar* applications and LDMOS, VDMOS for *Avionics & communication* applications.

www.minicircuits.com

Widest selection of RF/Microwave Standard & Custom components including *mixers, amplifiers, VCOs, filters, limiters, power detectors, digital step attenuators, VVAs, transformers, switches, couplers, phase detectors, phase shifters, synthesizers, RF Chokes, Bias Tees.* MCL also provides many lab environment items such as *test cables, power amplifiers, adaptors, fixed attenuators, DC Blocks & USB Power Sensor.*

www.mtronpti.com

Complete offering of Frequency Control Components including *Crystals, TCXOs, OCXOs, Clock Oscillators & Timing Modules.* MtronPTI also provides many Filter Products including *crystal, LC, Cavity, Ceramic, SAW and Planar Microwave based filters.*

www.tronser.com

Trimmer Capacitors. Precision turned machining up to 32mm in diameter. CNC milled aluminum and brass housings.
